Penelope is an advocate for Higher-Self-development and the pursuit of “viral energy” as a field of study. She uses her voice to call for the protection of the planet through the preservation of endangered species, the adoption of plant-based food sources, and a return to some of the wisdom of ancient and aboriginal peoples. She is the author of the book ***The Magic of Viral Energy: An Ancient Key to Happiness, Empowerment, and Purpose.***

The Magic of Viral Energy reveals provocative insights into the universe; our personal and romantic relationships; how we each have an energetic-presence that flows within specific energy strata; it speaks to the energetic antidote to unhappiness and even the common cold...plus challenges The Big Bang Theory in a totally new way that has never been looked at before.

In this book, author Penelope Jean Hayes explains our need to move from power-through-force to empowerment-through-creation; why we experience time as moving forward, how the universe is expanding exponentially (and by the way, scientists still have no idea), the fact that teleportation is possible, and how we can utilize energy for our greater success, fulfillment, and joy. All that, plus a Foreword by Oprah's Dog!
