ISBN 9781642796087 paperback

ISBN 9781642796094 eBook

Library of Congress Control Number: 2019941628

Release Dates

eBook: November 5th, 2019

Hardcopy Wherever Books Are Sold: **February 18th, 2020**

Book Description

The Magic of Viral Energy (MOVE) book offers a fun and compelling narrative told through true short stories. Its message is for seekers—those intrepids who want to squeeze the lemons of life and discover their full potential.

MOVE reveals provocative insights into the universe; our personal and romantic relationships; how we each have an energetic-presence that flows within one of seven levels of energy strata; it speaks to the energetic antidote to unhappiness and even the common cold...plus challenges The Big Bang Theory in a totally new way that has never been looked at before. In this book, author Penelope Jean Hayes explains our need to move from power-through-force to empowerment-through-creation; why we experience time as moving forward, how the universe is expanding exponentially (and by the way, scientists still have no idea), the fact that teleportation is possible, and how we can utilize energy for our greater success, fulfillment, and joy. All that, plus a Foreword by Oprah's Dog!

The Magic of Viral Energy is eye-opening and exciting and it makes day-to-day life easier and our big dreams possible!

Author's Mini-Bio

Penelope Jean Hayes is a new-consciousness author, contemporary philosopher, and speaker. She practices osmotic-energy-balancing and writes her spiritual and cosmological theories through a process of channeling higher-stream-consciousness. Her written works on social, popular culture, and environmental issues have appeared in *HuffPost* and she regularly writes aspirational content for the international publication *Face the Current* magazine. Penelope has a background in social/popular culture analysis and has appeared on television hundreds of times as an expert guest on programs including *Dr. Phil* and *ABC News*.

Penelope is an advocate for Higher-Self-development and the pursuit of “viral energy” as a field of study. She uses her voice to call for the protection of the planet through the preservation of endangered species and the adoption of plant-based food sources. Penelope is a vegan, wanderlust world-traveler, and *Survivor* superfan. She and her husband, Burton, currently live in Naples, Florida, although they are often on the *move*.

She is the author of the book, *The Magic of Viral Energy*, which centers on the contagious nature of energy, and she is currently writing her second title, *Do Unto Earth*, which reveals broader issues facing both humanity and planet Earth that directly affect you and our species’ future. Penelope is the Founder of the **Viral Energy Institute**; she discovered viralenology (The Study of Viral Energy) and is the world’s first viralenologist.
